Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 10/4/2004 has been entered.

An RCE complying with the requirements of 37 CFR 1.114 was filed after the issue fee has been paid. A petition under 37 CFR 1.313 was also filed and granted. Therefore, prosecution will be reopened. See M.P.E.P. § 706.07(h), part IX.

The above submission was accompanied by an IDS submitting T.W. GREENE, et al., "PROTECTIVE GROUPS IN ORGANIC SYNTHESIS", New York, Wiley & Sons, 1991, pp. 168-170. After consideration of the reference, the case is allowed for those reasons set forth in the Notice of Allowance of 7/15/2004. Namely, the reference fails to teach, or suggest to those of ordinary skill, to modify any known chemical reaction to include a step of preparing a compound of formula (2) by reacting a compound of

formula (1) with 3-methylcrotonic acid. In this same connection, the compound of formula (2) is novel as the prior art fails to teach those compounds of formula (2) where R is a sulfonyl group. Therefore, the prior art fails to provide motivation to those of ordinary skill to modify known process to include a final product that is a compound of formula (2).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
